Indoor Plant Moisture Level Chart

softgrove.github.io

Meter _____ Started _____

Moisture meter scale (typical 1–10 probe)

READING	SOIL IS	WHAT IT MEANS
1–3	Dry	Water drought-tolerant plants now; most foliage plants within a day or two
4–7	Moist	Hold off for most plants; this is the target zone for ferns, calathea, and other moisture-lovers
8–10	Wet	Do not water. If the pot stays here for days, check drainage and root health

PLANT	WATER AT READING	DATE	READING	WATERED?	NOTES
Cacti & most succulents	1–2 (fully dry)				
Snake plant, ZZ plant	1–3				
Pothos, philodendron	2–3				
Monstera, fiddle leaf fig, rubber plant	3				
Spider plant, dracaena	3–4				
Peace lily, anthurium	3–4				
African violet	3–4				
Calathea, prayer plant	4–5				
Boston fern, maidenhair	4–6 (never dry)				
Orchid in bark	Meter unreliable — judge by root color and pot weight
